

How to upload your task onto the **ADG-Dev-2021** repository:

**Step 1:** Clone the repository **every time** you want to upload a task.

**Command:**

```
git clone https://github.com/ADG-VIT/Android-Dev-2021
```

**Step 2:** Copy/Paste your task in your **respective task folder**.

**Step 3:** Push the entire folder onto GitHub.

**Commands:**

```
git add .  
git commit -m "Any Message"  
git push origin master
```

**Do not use -f/--force** flag in the push command.
